PROJECTS

AI powered-Resume Builder | *Vite.js, JavaScript, CSS, HTML*

- Created AI-Powered Resume Builder Web Application: Developed a responsive web application using JavaScript and Vite.js, integrating AI-driven features for personalized resume creation and optimization.
- Enhanced User Experience with AI Automation: Leveraged AI algorithms to automate content suggestions and formatting, improving the efficiency of the resume-building process and providing users with tailored resume templates.

Signmate | *Python, OpenCV, Mediapipe, TensorFlow*

- Developed SignMate, a real-time sign language translator that converts hand gestures into on-screen text using MediaPipe, TensorFlow, and OpenCV for gesture recognition.
- Implemented a user-friendly interface with React Native and integrated Firebase for real-time data handling, allowing accurate and responsive sign-to-text translation through camera-based input.

CERTIFICATIONS

- **Salesforce Trailmix Developer** – Salesforce
- **Web Development** – Smartknower
- **Cyber Security** – Skolar
